

# City of Lighthouse Point Residential Compost Pilot Program

## Program Application

Complete the form to show interest in the Lighthouse Point Residential Compost Pilot Program. The pilot program will include a five-gallon bucket for each resident. Residents will be responsible for dumping their compostable material into larger containers located in the Dixon Ahl Hall parking lot. It is recommended to empty your compost bucket bi-weekly. This pilot program is currently free for Lighthouse Point residents. Funding will be determined on an annual basis, should the program be successful in its initial term. The pilot program is first-come first-served and limited to 50 residents. Address verification may be required. Interested residents will be contacted.
