### Hurricane Season Begins Today!

**Trim Trees and Shrubbery:** Now is the time to trim trees and shrubbery, and remove coconuts. All vegetation is picked up in the City on a weekly basis. Having your property maintained before a storm will help to ensure that our Public Works Department will be able to assist all areas of the City during unexpected emergencies. Please remember, per [City Code Section 74-33](#), all contractor-generated trash must be removed by the company generating the contractor-generated trash.

**Bag It - Don't Blow It:** Per [City Code Section 90-39](#), no person shall throw debris of any kind, including lawn clippings or vegetation, into the canal. Both residents and hired landscapers should bag any lawn clippings or vegetation instead of blowing them into the canal.

**Dispose of Trash and Unwanted Household Items:** Now is the time to get rid of unwanted items. In previous years many residents waited until a hurricane was on its way before they emptied out their garages to make room for vehicles, and unfortunately had to bring their unwanted household items and trash back into their garages because there wasn't enough time for trash collection.

**Shelters or Evacuation Plan:** Now is the time to form a family hurricane action plan. Lighthouse Point is a mandatory evacuation area with category 3 and above storms. Determine what hurricane plan you and your family will follow should the need arise, how your home will be secured, and where you will stay. The best place to stay is in a home which is outside of the evacuation zone and that has hurricane shutters, food, and supplies.
